\$FATCAT

VERY MEOW, MUCH RICH

INTRODUCTION

\$FATCAT is a MEME advertising token based on smartBCH. The token is supposed to be fun and encourage the community to use the \$FATCAT logo, to create memes and to spread them around the world.

OBJECTIVE OF THE TOKEN

The aim of the token is to become the main meme token for the smartBCH community. It should be used as a funny advertising GAG for smartBCH, so to speak, in order to bring as many people as possible, who are interested in crypto currency, into the community of smartBCH and at the same time, cause a stir. The more people we can get interested in smartBCH together, the greater the benefit for all of us.

It is not the aim to compete with any other smartBCH token.

Later, it will be possible to integrate \$FATCAT into games such as a smartBCH casino.

WHY \$ FATCAT AND NOT DOGE?

The \$FATCAT logo was specially developed to give smartBCH a cute and concise face. In order to achieve this goal, a professional designer, who has already worked for international companies, was asked for advice. Several people were also asked which animals they like the most and find the funniest. In addition, this animal had to be known everywhere and have a good reputation. People therefore need to be able to look at this logo and be able to put into context with smartBCH. The result is today's \$FATCAT logo.

Here you can see a graph of which countries have the most cats:

Source: <https://www.statista.com/chart/10267/which-countries-have-the-most-cat-owners/>

Within 5 days, 1,150 members of the Telegram group have already joined. The rush is great and therefore, according to various forecasts by some members, it will grow. There are also 221 user-made MEMEs based on \$FATCAT.

\$FATCAT TOKENOMICS

PLANS FOR THE FUTURE

CONCLUSION

We are committed to promoting \$FATCAT as well as possible so that \$FATCAT receives a real UseCase. We don't want \$FATCAT to be used purely as a trading tool.

Above all, it is important to us that the entire smartBCH community benefits from \$FATCAT. We think, that smartBCH is a future-oriented technology and could become one of the blockchain-networks of the future. The more attention we generate, the more likely it will also be, that serious projects will be built on smartBCH and thus the value of the currency will also rise, as with ETH.
